

ABOUT US

Since our establishment in 2003, Infront Consulting has been a leader in IT and Cloud Solutions, with our mission focus of enhancing team efficiencies, accelerating system performance, and harnessing the power of the Cloud for businesses across diverse industries and sizes. Over the years, we've evolved from pioneering Datacenter Management solutions to offering cutting-edge Cloud, Development, and AI solutions.

Our acquisition by CelcomDigi Group in 2021 was a pivotal moment, fortifying our position and granting us increased strength, synergies, and competencies to address larger market segments. Today, Infront is a complete end-to-end bespoke IT solution provider, focusing on Cloud Solutions, Software Development, Scale Connectivity and Managed Services.

Infront maintains our own local Managed Services Center, capable of providing 24/7 support. Additionally, Infront is now able to augment our solution stack with CelcomDigi's robust nationwide connectivity platform.

With more than 200 successful projects deployed over the years, including for some of the largest Enterprises in the country, and an experienced team of highly-skilled consultants and engineers, Infront is committed to a value-driven and customer-centric approach, with solutions designed to deliver tangible business impact and solve customer pain-points.

E-INVOICING

In Oct'23, as part of the growing global e-Invoicing trend and to enhance the efficiency of our Malaysia's tax administration management, the IRBM announced the National e-Invoicing initiative for the country.

Infront Consulting offers our **e-Invoicing Solution** — a system designed to automate and align with IRBM's invoice generation, submission, validation, and compliance requirements.

Complete, streamlined &
feature-rich
e-Invoicing solution.

SOLUTION FEATURES

Unified User Interface

A singular interface to manage the complete e-Invoicing process.

All-in-one solution

Facilitates the complete range of e-Invoicing scenarios, including invoices, credit notes, debit notes, refunds, cancellations, and notifications. Built with comprehensive features like data dashboards, reports and alerts, and multiple delivery options (real-time or batch).

Complete compliance module

A versatile solution capable of extracting, transforming and perfecting Invoice data to align with e-Invoicing requirement, that complies with robust data governance practices.

Real-time Reconciliation

Automated two-way reconciliation between IRBM and disparate enterprise systems.

System Versatility

Back-end agnostic, able to collaborate seamlessly with existing IT/ERP systems.

E-INVOICING

WHY OUR SOLUTION?

Cloud solution with no system management required

Software-as-a-Service. Minimal business disruption. Ease of use. No system management required. Auto-upgrades for new compliance changes.

24/7 Dedicated local support team

Dedicated account manager during and post deployment.

24/7 compliance with 99.99% uptime

Robust system framework featuring automatic scaling and backup servers.

Modular architecture

Easy feature expandability for future requirements.

Error-free invoicing

Intelligent automations featuring data validation, automatic retries, error reporting and alerts to guarantee full compliance.

Malaysian-built

Local personnel, Local Support, Local pricing, Local hosting, 100% Malaysian.
